

Similarity and Quantification in Fuzzy Logic

Lu JingWei

Facultad of Informática
Universidad Politécnica de Madrid

February 11, 2011

Overview

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

- What is Fuzzy Logic (FL) ?
- Why do we need FL ?
- “Narrow” view of FL (Fuzzy Logic).
- “Wide” view of FL (Fuzzy Set/Relation).

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

o

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- **Structure Based Measurement(SBM)**
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- **Formalized in SOL Predicate**
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- **Formalized in FOL Predicate**
- Application of Quantification

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- **Application of Quantification**

4 Conclusions

Where we are . . .

1 Introduction

2 Similarity

- Statement of Problem
- Interpretation Based Measurement(IBM)
- Structure Based Measurement(SBM)
- Comparison between IBM and SBM

3 Quantification

- Statement of Problem
- Formalized in SOL Predicate
- Formalized in FOL Predicate
- Application of Quantification

4 Conclusions
